Field of use

Connection extension with a plug-in mains supply (power output) is for looping from one inverter (or motor) to the next. The Harting plug connector is equipped with 8 contacts (+PE) and has a 1-clamp locking system. An additional M16 threaded hole is available.

A separate plug connector (e.g. SK TIE4-HANQ8-K-LE-MX) should be selected for the incoming voltage supply (power input) from the mains (or upstream inverter).

An additional spacer plate is required for mounting on an inverter (SK TIE4-adapter kit-HAN, Part No.: 275 274 100).
